INTRO

Experienced Full Stack Developer with a proven track record of designing, developing, and implementing innovative solutions. Skilled in front-end and back-end technologies. Looking forward to create scalable and reliable solutions for web applications. **Certified AWS Solutions Architect.**

EXPERIENCE

Full Stack Developer

Feb 2024 - Present, SOSW, Tel Aviv, Israel

- Utilized various **AWS services: S3, EC2, Lambda, Cloudformation, DynamoDB, Route53, SNS, SQS, EventBridge, IAM, CloudFront, CloudWatch, SES.**
- Developed serverless web applications using **Python, Javascript, React, HTML, CSS.**
- Used **SQL** and **NoSQL** databases in various projects.
- Designed and implemented **RESTful APIs** utilizing **AWS EventBridge & API Gateway** to facilitate communication between front-end and back-end services within a serverless architecture, leveraging **AWS Lambda** functions for scalable flexible and cost-effective execution.

Dev-Ops Engineer

Dec 2022 - Apr 2023, A-Gency, Tel Aviv, Israel

- Monitoring, troubleshooting and resolving technical issues efficiently.
- Managed **AWS cloud infrastructure**, optimizing cost and performance for scalability.
- Developed and maintained back-end and front-end applications for the company's projects using **Python and React**, creating tools to automate DevOps workflow.
